Riif's Projects is a 100% black owned diversified Engineering, Mining and Construction Company founded in 2016.

Riif's Projects delivers superior engineering services ranging from EPCM solution, Engineering design, Construction, Maintenance and Repairs, Electrical services. Our emphasis is on Mining equipment, Construction and heavy-duty Electrical.

We also house some of the high technical engineering skills which positions us as one of the leading black owned players in the market.

### **AIMS**

The main aim of the company is to provide a one-stop shop for engineering services on projects or sections of a projects that may not ideally handled by larger well known companies. We will provide complete services or individual packages from design to fabrication of projects and plant maintenance. We also aim to offer draughting services to companies that might be running short of designers or are going through a temporary work surge, which would not justify increasing staff capacity.

FABRICATION:

1. Chutes
2. Hoppers
3. Screens
4. LHD Buckets
5. Trailers
6. Elbow bends
7. Tanks
8. Conveyor Structures
9. Staircases
10. Grizzlies
11. Transfer Boxes
12. Transfer Towers
13. Loading Boxes
14. CNC Plate Cutting & Machining
15. Suspended Conveyor Trestle & H-Frames
16. Refurbishments (On or Off site)
17. Underground Conveyor Take-Ups & Trolleys

REPAIRS:

1. Chutes
2. LHD Buckets
3. Trailers
4. Feeders

PLANT MAINTENANCE:

1. Screens / Vibrators
2. Feeders
3. Crushers
4. Aerators
5. Thickeners
6. Mills
7. Agitators

**Work Done / Experience**

The team has worked on multidiscipline projects under various consulting engineering companies. We treat all projects as confidential and all design concepts and solutions remain their property. This work has given the team exposure to various different fields and different parts of the world. The Company will endeavor to handle any project of any size within reasonable time limits set by the client.

In the team, the least experienced designer has 8 years experience. The team members have worked in mining, industrial, petro-chem and almost any other engineering field that is available.

Since requirements differ from projects to project, we will be willing to discuss your requirements and advise you accordingly. Riifs Projects believes in honesty, Transparency and integrity thus we will not take chances with something that we are not sure of. WE WILL ACCEPT WORK THAT WE CAN HANDLE.

## What do we offer to our clients

During these project phases we emphasize project management, design reviews and quality control.

Our experience, linked to sound fundamental understanding of processes, networks, equipment, applications, ensures viability and valid solutions.

Project management which enables us to do projects with stipulated timelines and client budgets by the use of MS Projects and Primavera

Our highly trained Technical Office has the capability to design and model custom made products for our

Clients, utilizing our in-house design software such as Auto CAD, 3D Solid Works, Pro-Mechanical and Others

In addition to our manufacturing capabilities, we offer site services where we Install and commission manufactured structures and equipment.
